

Dogs need lots of exercise every day just like you. Exercising with your dog is a great way to build a strong relationship with him.

Your dog will enjoy spending time with you and have lots of fun doing it.

---

You can be a responsible pet owner by exercising your dog in fun and safe ways, always with your parents' permission. Play games with your dog like fetch, Frisbee, kicking a soccer ball, or blowing bubbles, or just take your dog for a walk on his leash. But remember never to ride your bike, skateboard, or roller blade with your dog on a leash. Don't exercise your dog right before or after he is fed. After exercising, give your dog time alone to rest.
