

HELPING TO ENSURE HEALTHY PETS

Growing Up With Pets is sponsored by SENTINEL® (milbemycin oxime/lufenuron) Flavor Tabs®, the convenient way to protect your pets from five of the most common parasites in one easy step. There are five key parasites that pose a threat to your dog's health—fleas, heartworms, roundworms, hookworms (*A. caninum*) and whipworms. Fortunately, one SENTINEL® Flavor Tabs® tablet once a month can protect your dog from all of them. Only SENTINEL® Flavor Tabs® pack all that protection into an easy to give, tasty, beefy-flavored oral tablet, making it clean, convenient and safe for households with children.

SENTINEL® Flavor Tabs® provide 5-in-1 parasite protection in a formulation that easily fits into a busy family's lifestyle. Ask your veterinarian today if SENTINEL® Flavor Tabs® are right for your pet. And remember to check out growingupwithpets.com for information and advice on raising healthy kids and pets.

Dogs must be tested for heartworm prior to use. In a small percentage of treated dogs, digestive, neurological and skin side effects may occur. Please see full product insert for more information.
